the meeting of the Central Molasses Board where concerned Ministers of State Governments, Excise Commissioners etc. are represented. Recently also the State Governments have been asked to take necessary action as per rules against the defaulting units.

Import of Paraxylene

799. SHRI N. E. BALARAM :
SHRI CHATURANAN MISHRA :

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state :

(a) whether use of imported paraxylene is not permitted because of the scarcity of foreign exchange and its local availability ;

(b) if so, what are the details in this regard ;

(c) whether on the 24th January, 1990, the Secretary of the Department of Chemicals and Petrochemicals called a Meeting of para xylene manufacturers and users and it was stated there that Government would not allow foreign exchange to be squandered in the import of paraxylene

(d) whether import of paraxylene has been permitted recently; and

(e) if so, what are the reasons therefor ?

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI M. S. GURUPADASWAMY) : (a) and (b) Under the current import policy, paraxylene (PX) is canalised item. IPCL, a Public Sector Company is canalising agency. IPCL imports paraxylene as per requirement of DMT producers. Uptill now, during 1989-90, IPCL has imported 42199 tonnes of PX at estimated value of around US $ 28-42 million.

(c) Meeting undei question was an internal Meeting which Department holds from tune to time to review requirement of various products.

(d) and (e) Canalising agency has placed an order for 4000 tonnes of paraxylene with a view to meet requirement of DMT producers as also to create small buffer. This parcel is likely to arrive by end March, 1990.

Discovery of more Oil in the Cauvery Basin

800. SHRI N. E. BALARAM *i* Will the Minister of PETROLEUM AND CHEMICALS be pleased to state :

(a) whether it is a fact that the Oil and Natural Gas Commission has found more oil in the Cauvery Basin in Tanjavur District of Tamil Nadu;

(b) if so, what are the details thereof; and

(c) what steps are being taken for its proper reprocessing ?

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI M.S. GURUPADASWAMY) : (a) to (c) ONGC had earlier discovered hydrocarbon bearing prospects at Karaikal, Kovilkalappal, Narimanam and Nannilam in Thanjavur District of Cauvery Basin. They have further discovered oil and gas in Addiyakkamangalam-1 well in 1989. Three prospects namely, Narimanam, Nannilam and Addiyakkamangalam have been put on Early Production System. The remaining two prospects are still at the delineation drilling stage. The oil being currently produced in transported to Madras Refinery for refining. It is also proposed to set up a Crude Distillation Unit of 0.5 MMTPA capacity at Narimanam for processing the crude poduced in the Cauvery bas'in.
